Excell IT Participates in Windows 7 Small Business Ignite Program

Mississauga, ON — March 16, 2009 — Excell IT Inc. today announced participation in the Windows 7 Small Business Ignite Program. This program is designed to enable **Excell IT** to work with small businesses to ensure they have an opportunity to test drive the Windows 7 Beta. By design, Windows 7 Professional keeps small businesses needs in mind so they can get more done, faster and more secure without changing the way they work today. Excell IT also expects Windows 7 to help their customers save time by simplifying and streamlining everyday tasks, and help safeguard their business.

“Our customers need solutions to save time and money by everyday tasks done more efficiently” says **Jim Hingley, President of Excell IT Inc.** “We’re excited to participate in this program because our customers can test drive Windows 7 and see first-hand how it will positively impact their business.”

Excell IT works together with Microsoft Corp. to design deploy and support IT solutions for small to mid-sized business in the greater Toronto area. Excell IT has taken a proactive step in Windows 7 adoption and are preparing their clients with the necessary technology to support the new Operating system once it becomes available.

“By investing our time in testing Windows 7, we feel better positioned to assist our customers with an easy transition from previous versions of the Windows operating system”.

“We are pleased to have Excell IT join the Ignite program as they have demonstrated the skill and commitment necessary to deploy and support Windows 7,” said Ivonne Perrig, Windows Client Small Business Senior Marketing Manager at Microsoft Corporation.

Microsoft selected **Excell IT** as the only Ontario IT service provider for participation in the Ignite program –.

Focused on small to medium sized companies in the greater Toronto area; Excell IT provides a full-range of managed IT services including network design, security, maintenance, internet communications and technical support. They offer customers one-stop shopping including fixed monthly “no surprise” pricing.
